

# ATLANTIC TOWER™

Being part of the Atlantic series, the decoflame® Atlantic Tower™ is the smallest model available in this series. Just as all the other Atlantic models, it is executed in aluminium, stainless steel and hardened glass.

The vertical layout of the Atlantic Tower™ makes it well suited for smaller settings like in kitchens, bathrooms or hung on a column. The Atlantic Tower™ features the design-protected decoflame® burner on which the flame intensity is steplessly adjustable. The tempered glass screen to the front ensures an efficient convection effect and provides an even heat distribution in the room.

## STANDARD FINISH

## OPTIONAL FINISH

## TECHNICAL INFORMATION

Capacity:	1,7 L
Burning time:	Up to 8,5 hours (depending on flame intensity)
Heat efficiency:	1,1 - 1,7 kW/h
Net weight:	17,5 kg
Burner:	Manual
Materials:	Aluminium, stainless steel and 6 mm tempered glass
Finish:	Black powder-coated aluminium backplate, brushed stainless steel casing and burner
Optional finish:	White powder-coated back plate, white casing and brushed stainless steel burner Black powder-coated back plate, black casing and brushed stainless steel burner
Fuel:	Bioethanol at 96,5 - 97,5%

## FEATURES

- No chimney required
- No smoke, ash or soot
- Manual burner
- Safety chamber

## ACCESSORIES

- Shutter tool / Sponge

## BIOETHANOL

For use and information about bioethanol, please visit our website [decoflame.com](http://decoflame.com).
